

Dear Parents/Caregivers/Guardians

With Grade 4-7 Genius Hours presentations taking place today, along with the sharing of cupcakes to celebrate the 30th anniversary of PEPPS existence, we reach the climactic end of Term Three. We are grateful for God's continued grace over our school and its various members through these challenging times.

Our Foundation Phase reports have been issued. I wish to remind you that in the Intermediate Phase, we will only send a combined Term 3 and 4 Report in mid-November, just before the final examination period.

It has been a quiet and uneventful term as a result of Covid interruptions to our extra-curricular programme and at times, academic programme. We have managed to gain academic ground and continue to lay solid academic foundations that will enable the future success of our pupils. Our Genius Hour has revealed the multifaceted talent that roams our school grounds and I am tremendously proud of what our pupils can create when they are freed to explore their passions. I will share some highlights in the *Welcome to Term Four* letter.

Extra Credit Activities will be uploaded to myHomework for Grade 4-7 pupils. We encourage pupils to keep their minds active and the Extra Credit activities allow for reading, sports, creativity, logic and other fun activities. These are voluntary but beneficial and worthwhile.

I trust that you and your family will relish time together during this brief holiday period. Pupils will return to school on **Monday, 11 October**.

Kind Regards

Amanda Korff

Prep Head
